

Soapmaking with Anna's Plants

Information

In this workshop, you will learn the basics of natural soapmaking. An artisanal practice people knew as a standard household task for hundred of years, until industrial soap made people unlearn this practice. We will work with natural and organic ingredients, which are gentle for your skin and the environment. We will take extracts of plants that grow in Anna's Tuin to give the soaps extra special quality. Every participant will get 1 homemade soap bar after the workshop.

Take with you: cleaning gloves and an apron.

Date

Saturday July 24

14.00 – 17.00 hrs

Age

Adults and children above 12

Max. group size

8 people

Language

ENG
